Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-23, drawn to a microfluidic device, classified in class 435, subclass 287.2.
 - II. Claims 24-27, drawn to a method of concentrating a polarizable particle or molecule, classified in class 436, subclass 2; claim 28, drawn to a method of concentrating particle or molecule on a silicon or glass chip, classified in class 436, subclass 501; and claim 31, drawn to a method of fractionating particles or molecules, classified in class 436, subclass 501.
 - III. Claim 29, drawn to a method of improving the hybridization rate of polynucleotide molecules, classified in class 435, subclass 6; and claim 30, drawn to a method of improving the rate of a polymerase chain reaction, classified in class 435, subclass 91.2.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions II, III and I are related as processes (Groups II and III) and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be practiced with the methods of either Group II or Group III.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1634

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley L. Sisson whose telephone number is 703-308-3978. The examiner can normally be reached on Monday through Thursday from 6:30 AM to 5 PM.

7. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, W. Gary Jones can be reached on 703-308-1152.
